

Specification Quality Checklist: Tokyo Mate 東京通 | Photo Translate 拍照翻譯

Purpose: 在進入後續階段前驗證規格完整性與品質

Created: 2026-09-19

Feature: [spec.md](#)

Content Quality

- ☒ No implementation details (languages, frameworks, APIs)
- ☒ Focused on user value and business needs
- ☒ Written for non-technical stakeholders
- ☒ All mandatory sections completed

Requirement Completeness

- ☒ No [NEEDS CLARIFICATION] markers remain
- ☒ Requirements are testable and unambiguous
- ☒ Success criteria are measurable
- ☒ Success criteria are technology-agnostic (no implementation details)
- ☒ All acceptance scenarios are defined
- ☒ Edge cases are identified
- ☒ Scope is clearly bounded
- ☒ Dependencies and assumptions identified

Feature Readiness

- ☒ All functional requirements have clear acceptance criteria
- ☒ User scenarios cover primary flows
- ☒ Feature meets measurable outcomes defined in Success Criteria
- ☒ No implementation details leak into specification

Notes

- 規格只定義使用者可觀察的照片取得、區域選取、可靠 OCR、翻譯、語音播放與恢復行為。
- 未指定 OCR provider、AI model、裁切工具、前端 dependency、元件結構、API endpoint、資料 schema 或 hosting。
- 未留下需澄清標記；照片僅限當次使用與既有產品隱私治理原則已明確列入需求。
